Summary

Onsite
Location: East Hanover, New Jersey
Hybrid
#LI-Hybrid

About the role:

GCO is Novartis' powerhouse of Global Clinical Operations, redesigned to have faster trial recruitment and enhanced trial delivery resulting in more timely access for patients to potential novel treatments. As the Associate Director, Innovation Capability for Clinical Trial Diversity, you will drive the delivery of innovative solutions for clinical trials in the key focus area of diversity and inclusion. In this role, you partner with the Portfolio Innovation Directors and ensure solutions are in line with the Operational Execution Plan and expectations of GCO sub-team, support CTTs in the successful implementation and deployment of innovative solutions and translate learnings into capability development. You will be a key member of the Innovation Capability Team and works closely to develop innovative solutions aligned to Program Strategy & Planning's (PSP) vision while supporting Portfolio Innovation Directors in maintaining an inventory of innovation solutions and be part of a community of practice for sharing implementation and execution success factors. Every day, we are the link between science and medicine - imagine the impact you could bring!+

About the Role

Your Key Responsibilities:

- Develop, implement, and deploy innovative solutions outlined in the Operational Execution Plan (OEP) in close collaboration with the Clinical Trial Team (CTT) while maintaining oversight post-deployment with the Portfolio Innovation Director.
- Lead cross-functional team and vendors to deliver innovative clinical trial solutions in line with time, cost, and quality expectations.
- Conduct and/or coordinate vendor kick off meetings, design reviews, user acceptance testing and lessons learned as well as review content of vendor results (e.g., User Requirements Specifications) for innovative solution vendors in partnership with vendor management.
- Develop and review content in key trial related documentation (e.g., protocol, ICF, site, and patient training materials) for innovative solution in collaboration with Portfolio Innovation Director, CTT and vendors.
- Proactively identifies and addresses potential roadblocks, risks and/or issues and applies a continuous

learning approach to drive improvements in innovative solutions based on input from early adopters and/or gap analysis.

- Responsible to ensure consultation of cross-functional authorities and experts (e.g., Regulatory, Quality, Legal, Data Privacy) in the trial specific delivery of the innovative solution.
- Develops and leads new processes where no process or precedent exists in collaboration with the Innovation Capability Head, while maintaining compliance with current regulations (both internal and external).
- Supports identification of emerging technologies and external trends for their focus area to ensure GCO continues to leverage best in class innovative solutions.
- Expected travel: approximately 5-10% domestic.

Role Requirements:

Essential Requirements:

- Bachelor's degree in sciences/ healthcare/ technology and 5+ years of clinical trial innovation and/or solution delivery experience in innovation focused area (clinical trial diversity & inclusion).
- Advanced knowledge of clinical development process, regulatory requirements, and Good Clinical Practice (GCP).
- Successful track record of problem-solving and navigating uncharted territory without clear precedent.
- Demonstrated ability to collaborate across partner functions in a matrix environment, without direct reports, but able to coordinate the activities of others.
- Experience in planning and executing cross functional GXP relevant innovation projects for clinical trials looking beyond own functional area.
- Good project management capabilities with demonstrated ability to problem solve and mediate complex issues.
- Embraces a culture of diversity, inclusion, quality, innovation while driving forward with integrity at all times.
- Strong tolerance for ambiguity, willingness to adapt, speak-up and challenge.

Desirable Requirements:

- Advanced degree.
- Management experience in a matrixed environment.
