

# Senior Project Manager

Job ID  
REQ-10014863  
Juli 22, 2024  
USA

## Summary

At Advanced Accelerator Applications, a Novartis company, we are committed to leading innovation in nuclear medicine and delivering the next generation of targeted radioligand therapy (RLT) to cancer patients.

The Senior Project Manager will ensure that new facility project in Indianapolis is supported by coordination and management of project engineering activities including internal and external stakeholders, vendors, and suppliers. Represent the business in strategic initiatives and projects and support developing strategic plans, capital plans, and financial scenarios. Assist in management of CAPEX budget for capital expansion and improvements consistent with Novartis Operations RLT manufacturing strategic and business plans.

Location: Onsite

## About the Role

- Senior Project Manager is responsible to deliver key projects in Indiana on time, in scope, in function, and in budget.
- Provide leadership and oversight to the site strategic projects, including creating a vision, multi-year strategies and operating model for a customer centric, globally aligned function.
- Provide leadership and guidance to project delivery teams to effectively execute capital projects for ideal volume delivery strategy of Isotope expansion project
- Enable a culture of cross functional collaboration and communications
- Be a valuable member and contributor to the Project Team
- Partner with necessary global functions to develop a forward thinking, customer focused site
- Asset & Capital Project oversight and Capital Project delivery
- Deliver additional capacities for strategic products from design to licensed facility
- Contractor & supplier management
- In partnership with key stakeholders, play a pivotal role in evolving our design standards to apply agile principles and technology advances.
- Provide sponsorship to leaders who have direct responsibility for these technical disciplines.
- Leadership of People and Teams
- Builds, develops and manages leadership team capable of engaging employees' commitment to achieve the company's goals and objectives, while complying with company policies.
- The position will oversee, develop and retain technical workforce employees within the region. The total workforce will also be comprised of independent contractors and strategic service providers that deliver on the regional CAPEX portfolio.
- Ensure capabilities for delivering future capacities.
- Promotes high employee engagement and a positive work environment.

- Supporting project head for organizational design and staffing decisions. Helping project head to recruit, retain, train and develop the team for site ramp up.

The pay range for this position at commencement of employment is expected to be between \$151,200 and \$226,800 year; however, base pay offered may vary depending on multiple individualized factors, including market location, job-related knowledge, skills, and experience. The total compensation package for this position may also include other elements, including a sign-on bonus, restricted stock units, and discretionary awards in addition to a full range of medical, financial, and/or other benefits (including 401(k) eligibility and various paid time off benefits, such as vacation, sick time, and parental leave), dependent on the position offered. Details of participation in these benefit plans will be provided if an employee receives an offer of employment. If hired, employee will be in an “at-will position” and the Company reserves the right to modify base salary (as well as any other discretionary payment or compensation program) at any time, including for reasons related to individual performance, Company or individual department/team performance, and market factors.

### **Minimum Requirements:**

- Bachelors Degree is required.
- Minimum of 7+ years of pharmaceutical production experience is required.
- Minimum of 5+ years managing capital projects and equipment qualification is required.
- Critical Negotiations experience.
- People Leadership experience.
- Project Management experience

### **Why Advanced Accelerator Applications?**

Thousands of people die of cancer around the world every day. At Advanced Accelerator Applications, a Novartis company, our mission is to transform lives through radioligand therapy in nuclear medicine to fight several leading types of cancer. How will we continue to be on the cutting edge of medicine? We believe new groundbreaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working. We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying! Imagine what you could do here at Novartis!

### **Commitment to Diversity & Inclusion:**

Novartis embraces diversity, equal opportunity, and inclusion. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration and empowers our people to unleash their full potential.
