

Associate Director Automation Lead(SAP BPA)

Job ID
REQ-10010941
Juni 20, 2024
Indien

Summary

Location: Hyderabad

As a key player in our Automation journey , this role will be accountable for design and development of automation use cases identified under multiple workstreams of LDC(Lean Digital Core initiative) primarily using SAP Build Process Automation. They will be responsible for assessing the approach for automation and end to end deployment of BOTs.

About the Role

Your responsibilities include but are not limited to:

- Proven track record and expertise in designing, deploying and operating process automations with SAP Build Process Automation.
- Deep technical knowledge of business process automation with SAP BPA and in context of S/4 processes.
- Identify and assess automation opportunities along with various workstreams to improve processes efficiency within Novartis. Assess the right technology/tool for automation by triaging the use case and provide development and deployment efforts for automation use cases.
- Work with Business Process Excellence Team to discuss automation opportunities and implement solutions following Novartis Lead Digital Core Methodology.
- Ensure use cases adhere to architectural roadmap and support the development, execution and operations of solutions. Ensure that solutions meet requirements outlined in the design documentation. Ensure the overall user experience is taken into account when designing and deploying new solutions and services.
- Ensure alignment with Security and Compliance policies and procedures within Solution Delivery scope. Prepare regular reports and presentations for LDC workstreams and LDC LT, providing insights on the benefits achieved and recommending further improvements.

Minimum Requirements:

- Technical experience of 10+ years with JavaScript or other programming languages.
- Strong understanding of SAP Build Process Automation technology and its business potential
- End-2-End hands on experience with BPA - Automation using UI Approach, API & Action based, Approval Forms designing using BPA, leveraging various out of the box available SDK's, Environment based approach, Workflow Management, BPA Transports, API Triggers.
- Experience in conducting thorough business process analyses and planning innovation/transformation journeys. Understanding of REST APIs and OData to facilitate efficient and effective data exchange

between systems.

- Schedule BOT's in RDP servers in various modes(attended/unattended)
- Strong understanding of S/4HANA API consumption and 3rd party API consumption to develop and implement integration solutions using BPA.
- Knowledge on BPA Integration with Build Apps, Task Center Enablement for SAP BPA.
- SAP SBPA certification preferable.
