

Sr. Spec. DDIT IES Reliability Engg

Job ID
REQ-10013906
Juli 10, 2024
Indien

Summary

-Translating technology needs to underlying component design with a focus on reliability, security, and performance. -An important aspect of this role is troubleshooting and driving the resolution of complex multi-technology infrastructure and service disruptions -By working holistically across technology areas, the candidate will ensure swift solutions to technology issues and continually improve the footprint, using an insight-led, software-driven and iterative approach.

About the Role

- Work closely with software developers and operations teams to ensure the reliability and uptime of our software applications and infrastructure
- Design and implement systems and processes to monitor and improve the reliability and availability of our software applications and systems
- Identify and resolve performance bottlenecks and infrastructure issues
- Develop and implement monitoring and alerting systems to ensure the timely detection of issues
- Work with teams to establish reliability targets and drive continuous improvement efforts
- Develop and implement disaster recovery plans to ensure business continuity in the event of a system failure
- Stay up to date with the latest advances in reliability engineering tools and methodologies, and identify opportunities to improve the reliability and scalability of our systems
- Collaborating with internal teams to handle technical issues and improve systems and protocols based on feedback and performance metrics.

Requirements :

- Degree in Computer Science, Engineering, or a related field.
- Minimum 6+ years of experience in the Industry
- Strong understanding of Linux/Unix systems administration, and experience with cloud platforms such as AWS, Azure Cloud
- Good understanding of networking and system concepts.
- Excellent problem-solving skills and ability to handle high-pressure situations.
- Ability to manage and coordinate a distributed team effectively.
- Willingness to provide after-hours support when necessary.
