

# Postgraduate Quality Control (QC) Cell & Gene Therapy

Job ID  
REQ-10016093  
Juli 25, 2024  
Schweiz

## Summary

We are looking for a motivated recent graduate with a master's degree to join our QC Cell & Gene therapy team in our production site in Stein for 1 year for an exciting lab automation project.

## About the Role

### Why join Cell & Gene Therapy?

In the Cell & Gene Therapy network we are operating on a daily basis (including weekend days) to deliver our lifechanging medicines the most rapidly to the patient. We are helped do this by facilities and infrastructure that are top class, but also by an environment that is open-minded, and one which supports people to develop with mentoring, training and the opportunity to experience different disciplines. We are looking for a motivated recent graduate with a master's degree to join us in our production site in Stein for 1 year for an exciting lab automation project.

### Major accountabilities:

- Support the laboratory in the implementation of new techniques/technologies and lab automation project
- Support the preparation of equipment qualification plan and writing related SOP
- Interact with Engineering to define the adequate maintenance plan
- Execute the equipment performance qualification

### What you'll bring to the role:

- Master degree in bio-chemistry, biology or pharmacy (completed in the past ca. 12 months) with strong experience in biological assays experience (Flow Cytometry, ELISA ...)
- Laboratory experience
- Collaboration; result-oriented
- Breakthrough Analysis; Being Resilient; Operational Excellence, Statistical analyses;
- MS Office applications and other standard IT applications supporting Quality activities

### Desirable:

- Previous experience working in a biological laboratory environment in the pharmaceutical industry (quality assurance, production).

### Languages :

- English (oral and written)

- German optional

## Why Novartis

Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
