Summary

• The FML is responsible for scientifically engaging, collaborating and aligning with a broad range of external stakeholders to co-create value, address identified patient needs and ultimately change the practice of medicine for better patient access and outcomes. They leverage the right evidence at the right time during their engagements, and identify insights and opportunities that impact and inform the Integrated Product Strategy (IPS), Integrated Evidence Generation Plans, launch excellence roadmap, Patient Journey and medical strategies. FMLs also contribute to innovative partnerships and implement relevant disease area strategies. They will act as a strategic scientific partner, and collaborate with other Field matrix colleagues (e.g. Value/Market Access, HEOR, clinical research colleagues) to ensure Novartis can support healthcare systems strengthening & improve patient access and outcomes.

About the Role

Internal Role Title: Remibrutinib Field Medical Lead

Location: Seoul, Korea #LI-Hybrid

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

Key Responsibilities:

- Be a strategic internal partner, gather and leverage insights for an impactful contribution to Patient Journey mapping, launch excellence roadmap, integrated evidence generation plans, integrated product strategy and subsequently the medical strategy.
- Utilize knowledge of assigned therapeutic area and Novartis compounds to serve as the Medical, Clinical and Scientific expert to field matrix colleagues.
- Identify data gaps, data generation opportunities (including RWE and implementation science, precision medicine), and key unmet needs and opportunities to help improve patient access and outcomes.
- Ensure appropriate identification and mapping of external stakeholders, aligned to the medical strategy, and in collaboration with other Novartis colleagues. Able to create personalized, flexible engagement strategies and plans, leveraging multiple channels and tailored content to meet the changing needs of external stakeholders.
- Personalize and expand external stakeholder engagement beyond Healthcare Professionals. Support and contribute to innovative partnership models for shared ownership in transforming clinical practice.

- Apply foundational impactful Scientific Engagement principles in stakeholder interactions in alignment with medical strategy and portfolio/pipeline prioritization.
- Communicate the right evidence to the right stakeholder at the right time, enabling stakeholders to make informed decisions
- Respond to unsolicited requests for information from stakeholders by sharing appropriate data regarding marketed and pipeline compounds in a timely, compliant, and stakeholder-focused manner.
- Adopt and leverage digital channels for a broader, effective, personalized reach and impact, in addition to leading high level impactful scientific events, exchanges and medical education
- Manage personal and professional development.
- Manage administrative responsibilities in a timely manner (customer relationship management tool, compliance training and other modules, expense reporting, etc.).
- Promote and adhere to Ethics and Compliance Professional Practices Policy (DBE).

Essential Requirements:

- Knowledge of MOA of a drug, clinical trial design, and results, and with proud mind-set as a medical expert
- Good collaboration skills with relevant parties and communicating with various stakeholders
- Resilience to overcoming pressures to communicate with HCP
- Open-minded and passionate for learning
- Responsive flexibly to unexpected situations and communicate clearly.
